

# QIRT Journal

An International Journal on  
Quantitative InfraRed Thermography

## Content Vol. 4 – n°1/2007

A. Bendada, C. Ibarra-Castanedo, X. Maldague A combined integral transform asymptotic expansion method for the characterization of interface flaws through pulsed infrared thermography.....	3
A. El-Maadi, V. Grégoire, L. St-Laurent, H. Torresan, B. Turgeon, D. Prévost, P. Hébert, D. Laurendeau, B. Ricard, X. Maldague Visible and infrared imagery for surveillance applications: software and hardware considerations .....	25
M. Gallo, T. Astarita, G.M. Carlomagno Heat transfer measurements in a rotating two-pass square channel .....	41
S. Prakash, P.Y. Lee, A. Robles-Kelly Stereo techniques for 3D mapping of object surface temperatures .....	63
R. Gupta, O. Breitenstein Unsteady-state lock-in thermography – Application to shunts in solar cells.....	85

M. Kaczmarek, A. Nowakowski, M. Suchowirski,  
J. Siebert, W. Stojek  
Active dynamic thermography..... 107

*Calendar of thermographic events* ..... 125
